### **Professional Summary:**

As an entry-level full stack developer, I bring a versatile skill set capable of designing and implementing a wide range of web applications. Proficient in leveraging the MERN stack (MongoDB, Express.js, React, Node.js) to develop scalable and responsive solutions, I possess adeptness in both front-end and back-end technologies. With expertise in HTML5, CSS3 (Bootstrap, Tailwind), and JavaScript, coupled with a solid foundation in RESTful API development and MVC architecture, I am poised to contribute effectively to complex development projects. Committed to ongoing professional growth, I am eager to collaborate within dynamic teams to deliver innovative and impactful solutions in the ever-evolving landscape of full stack development.

### **Leadership:**

- Worked in several leadership roles, most notably, with Star Cushion played a pivotal role in overseeing and optimizing day to day operations to ensure efficiency, productivity, and compliance with industry standards. Designed and manufactured new products when needed.
- QuikTrip frequently filled managerial positions, sometimes in completely new environments.
- City of Shiloh primary project lead working in planning, budgeting, and supervising the construction of their city's dog parks.

### **Technical Skills:**

Product Design using (these tools), Mern Stack (MongoDB, Express.js, React, Node.js) define what the tech stack is JavaScript, React etc.), MVC, NoSQL (MongoDB), SQL, PWA, HTML5, CSS3 (Bootstrap, Tailwind), Insomnia for testing (were you using Insomnia for API testing? If yes were you working in RESTful APIs? If yes list and did you build your own API or consume?), Compass, Git/GitBash for Version Control, GitHub, Deployment to cloud-based services such as Netlify for the front end and Heroku for the back end etc.

**Projects:** that you have completed / contributing(ed) to utilizing the above skills list below:

**Continuing Education:**

Washington University, Saint Louis, MO | Coding Bootcamp

I attended a coding bootcamp where we learned the necessary skills to become full stack engineers. (What tech stack / industry tools / functional skills did you learn in the bootcamp? I would add more detail here)

**Work Experience:**

**Star Cushion, 5 Commerce Dr, Freeburg, IL**

**01/15/2020 – 08/25/2023**

**Assistant Operations Supervisor**

- Manage relationships with distributors and suppliers while supervising all manufacturing operations
- Worked in IT and quality control for products in addition to designing new products and manufacturing prototypes

**QuikTrip, 2255 Bluestone Drive, St. Charles, MO**

**05/06/2013 – 01/10/2020**

**Extended Relief Clerk**

- Worked as interim manager when needed
- Extensive customer service
- Cash handling, reconciling shift registers at end of shifts, securing facility, inventory management

**Star Cushion, 5 Commerce Dr, Freeburg, IL**

**09/20/2012 – 05/06/2014**

**General Employee**

- Assemble parts for later production, file documents, and oversee inventory management.
